Avanzati di Neuroscienze

NICO

Neuroscience Institute Cavalieri Ottolenghi

Program

Advances in Neuroscience teaching

Chair: Isabelle Perroteau, University of Turin, Italy

9:00-9:40

The Euro-Mediterranean Master of Neuroscience
on-line Marc Landry (Bordeaux University, France)

Advances in Neuroscience research

Chair: Silvia De Marchis, University of Turin, NICO, Italy

9:40-12:40

**From molecules to behaviour in
physiology and pathology**

**Relaxin-3 and its role in neuroendocrine function
and arousal** *Anna Blasiak (Jagiellonian University,
Krakow, Poland)*

**Development of the relaxin-3 innervation of the
septal area** *Francisco E. Olucha Bordonau (Jaume I
University, Castelló de la Plana, Castellón, Spain)*

Insulin signalling in a neuroinflammation model
*Ana Maria Sanchez Perez (Jaume I University, Castelló
de la Plana, Castellón, Spain)*

Coffee break

Circadian clocks and feeding *Patrick Vuillez
(Strasbourg University, France)*

**Organization of the vomeronasal circuits mediating
sexual attraction in rodents** *Enrique Lanuza (Valencia
University, Spain)*

**Acid Sensing Ion Channels-3 is a polymodal sensor of
inflammatory mediators in inflammatory pain**
*Jacques Noël (Université de Nice Sophia Antipolis,
France)*

**KCC2: a pharmacological target for morphine-
induced hyperalgesia** *Francesco Ferrini (University of
Turin, Italy)*

NeuronLine Strategic Partnership

**4CFU recognized to PhD students
for attendance to this meeting**

PhD in Neuroscience
University of Turin

Registration is free, but requested

link to complete the registration form:
<https://form.jotformeu.com/73092629960363>

Organizing committee:

I. Perroteau, M. El Soury (DSCB, University of Turin)
S. De Marchis, I. Crisci (DBios, University of Turin, Nico)

Contacts: silvia.demarchis@unito.it

14:30–17:00

The effect of yoga in correctional settings – new evidence from a RCT *Nora Kerekes (West University, Göteborg, Sweden)*

Stem cells, neurodegenerative diseases and repair

Neural stem cells: from neurobiological mechanisms to therapeutic opportunities *Mariagrazia Grilli, (University of Piemonte Orientale, Novara, Italy)*

Neurogenic potential of striatal astrocytes in health and disease *Federico Luzzati (University of Turin, NICO, Italy)*

Peripheral nerve injury, repair and regeneration" *Stefania Raimondo (University of Turin, Italy)*

iPS cells for studying the neurodegenerative Charcot-Marie-Tooth disease *Josema Torres (University of Valencia, Spain)*
