

Gaia Elena Berto

Senior Post-Doc fellow

Tel

Fax

e-mail: gaia.berto@unito.it (<mailto:gaia.berto@unito.it>)

Born in Turin, 19.05.1979 - Italian

Education

2003-2007 PhD in Human Biology: Molecular and Cellular Basis, University of Turin, Italy

1998-2003 Master degree in Medical Biotechnology 110/110 magna cum laude, University of Turin, Italy

Current position

Postdoctoral Fellow (Assegnista di Ricerca) in Ferdinando Di Cunto's Lab

Previous positions

2008-present Post-Doctoral Fellow in Prof. Ferdinando Di Cunto's laboratory, Molecular Biotechnology Center Torino (Italy)

2007-2008 Visiting in Dr. Carlos Dotti's laboratory, University of KU Leuven (Belgium)

2003-2007 PHD Student University of Turin Torino (Italy)

2002(July/October) Summer School in Stamenkovic's laboratory, University of Lausanne (Switzerland)

Scientific interests

My research is related to molecular and cellular regulation of neuronal differentiation. In particular, I'm currently involved in the study of molecular events that characterize cortical neuronal migration in Down syndrome pathology.
